

Learning Science... Doing Art!

June 4—8, 2018 or
June 18—22, 2018
9 am—3 pm

Charlotte Harbor Environmental Center

10941 Burnt Store Road, Punta Gorda, FL 33955

This summer camp program is only for students who are in 4th grade this 2017/2018 school year.

Each day students will investigate a particular scientific focus, including the water cycle (hydrologic cycle), with outdoor environmental exploration as the foundational activity. After taking notes on outdoor observations and thoughts in their Field Journals, students will return indoors for group discussion, art activities and a story or video. Science art work will be used to make a book, along with other items, which each student will take home at the end of the week.

*Class duration is one week. The same program will be taught both weeks.
Please enroll your child in either one of the two weeks listed.*

Camp Hours & Pricing

\$135/week for CHEC members

\$150/week for non-members

Before & after-care is NOT available for this program.

Camp fees include activities, a t-shirt, and more. Lunch and snacks are NOT provided. Payment is due in full at the time of registration. Registration forms are available at www.checcflorida.org, "For Kids". Scholarships are available.
